Women in medicine--History
Yellow fever
Yellow fever--Pennsylvania--Philadelphia

Background

This is a constructed collection of various special services that the Daughters have done during epidemic crises in the 19th and early 20th centuries. These peacetime special services are mandated by the Paris Motherhouse of the Daughters of Charity and done at the discretion, availability, and resources of the provinces, and they may be rendered to areas not usually among the clients of the community. Epidemics of Asiatic cholera routinely struck American urban centers throughout the 19th century, with the Daughters assisting in St. Louis, New Orleans, Philadelphia, Baltimore, Albany, Boston, New York City, and Washington D.C. in the early 1830s. Other outbreaks occurred in Buffalo, Detroit, Milwaukee, St. Louis, and Troy, NY in the late 1840s and again in Detroit and Buffalo in the 1850s. Yellow fever was common in the South, with the Daughters assisting in Mobile, Norfolk, Portsmouth, New Orleans, and Donaldsonville between the 1840s and the 1870s. Smallpox struck Detroit and Troy in the 1880s. The nationwide Spanish flu epidemic, immediately after World War I, saw massive casualties around the United States and a wide mobilization of the Daughters.

Scope and Contents

The collection contains correspondence and accounts of special services during various epidemics in 19th and 20th century United States, including cholera in the 1830s, 1840s, and 1850s; yellow fever in the 1840s and the 1870s; small pox in the 1860s and 1870s, and the Spanish flu epidemic of 1918. It also contains secondary articles, newspaper clippings related to the Daughters service in the epidemics.

System of Arrangement

This collection has six series: 1) General Information, 2) Cholera, 3) Epidemic Fever, 4) Yellow Fever, 5) Small pox, 6) Spanish Influenza.

The Spanish Influenza series has an item-level inventory.

Conditions Governing Access

No Access Restrictions

Conditions Governing Reproduction and Use

Where copies exist, these should be used as opposed to originals as possible.

Permission for any type of publication of archival materials, including text, photographs, video, or audio must be secured from the Daughters of Charity Communications Director before publication. Contact archives staff for appropriate forms and contact information.

Custodial History

This is a constructed collection from the Archives of the Daughters of Charity, Southeast Province. Ownership transferred to the Archives of the Province of St. Louise during the provincial merger of 2011.
